Dear Margaret,

Thank you for your recent letter. The fact that John told you he needed Barbara's property to me, is not correct. I thought a lengthy and costly legal battle to obtain that which my company had paid all money for. John contacted the action with someone purporting to be Mrs Belling however, since they could not prove that had paid any money, the matter went to High Court and is now in the hands of a Judge. I will regard to Valley Springs, once again my company put up all the money for this property. I was forced to sign over my trademark agreement

under duress and I have since told John on at least two occasions that I will never allow my name. Indeed I did speak to my lawyer who said it would be most unwise for me to sign anything since my own name is 'held' on Valley Spr and he is not quite sure how the matter stands at present. I therefore have to return the said cash & return to you. I have no objection to you holding the deeds in safe keeping. I am sorry I cannot co-operate.
Yours sincerely
David Schindler
