Dear Pam,

I am sorry about your illness, are you getting treatment?

First of all you know that I have been working for years to get back at John Bishop. I have spend lots of money and time on all this and to see these efforts ruined by a telephone call from James is simply not expectable. I need to speak to James, if you could give me his telephone number.

Secondly, I did tell you that I would setout everything to you in writing and documentation when we next were going to meet up.

John's lawyers have claimed that you have money and you used your own money when you gave the property to him. The transfer of Finchley Road had to take place to "prove" that you had lost everything including your home. As I mentioned the revenue, did not like this type of transaction because the estate will save hundreds of thousands in estate duty.

Spazi Foundation owns Spazi Properties S.A. I told you that I would make Viv one of the trustees, just in case something happened to me, as the other trustees are nominees. The other trustees or entirely nominated. Your are the beneficial owner of the Foundation. Viv could not appear as a director of Spazi properties S.A., since John's lawyers could than see that the whole thing is a conspiracy to get at John. The list of directors of the company is publicly available in Panama.

I have a copy of the form you signed in December last year; it was witness by a lawyer colleague of Michael Swaden. I will give you the copy when I see you. I just can't believe that you now say that you did not know about this, you and I have discussed this many times in the last 18 months, moreover, I did tell you about the problems with the revenue in accepting the transfer, since the estate save so much money in the future.

Considering the fail out, I need to speak to the lawyers and you need to stop this rot. My concern is that James and Viv has a different agenda. I have to come to London.

You are not going to die now, you can live and will live for many years and you cannot start giving money or assets away now. You need everything and I am most concerned that Viv is manipulating you. It is not a problem to state in your Will that "in the event that Viv and Miriam were to separate; only Viv should be entitled to live in the house".

~~We need to speak~~ and I need to get James telephone number.  
~~I hope you soon~~ will feel better.

Love

MH
